

Atrel Engineering is an engineering firm that focuses on residential development as well as municipal and commercial design. Based in Rockland Ontario, we have provided innovative and comprehensive solutions to clients in the Ottawa area for more than 25 years.

If you are looking for an opportunity to advance your career on urban infrastructure projects, we have the job for you.

Currently we are seeking a Civil Engineering Technologist with solid experience with AutoCAD Civil 3D

### **Key Tasks & Responsibilities**

- Design for a wide-range of municipal projects
- Assist in the cost effective, proper and timely production of civil engineering designs and drawings that meet all client and approval agency requirements and standards
- Assist in transforming preliminary concepts and sketches into engineering designs, plans and project informational requirements, using primarily Civil 2D/3D, as well as other technical software as needed

### **Skills**

- Ability to work well in Design team environment
- Proficiency in AutoCAD, Civil 3D, Civil 2D and Microsoft Office
- Attention to detail and excellent communication skills (verbal and written)
- Ability to work independently and also within a busy and high-performing team.

### **Qualifications**

- Diploma in Civil Engineering Technology
- Certified Engineering Technologist (C.E.T.) is an asset
- Minimum 4+ years of local experience in land development
- Experience in dealing with contractors and approving authorities
- Strong knowledge of Microsoft Office
- Strong communications skills, both written and verbal
- Excellent interpersonal skills.
- Self-starter and team player.
- Valid driver's license.

We offer competitive salaries and benefit packages, and opportunities for career growth and development.

No phone calls please.
